

FRAME Summer Studentship Application form

Please email completed forms to: amy@frame.org.uk

Closing Date for applications: Sunday 1st May 2022

You will receive a confirmation email to say your application has been successfully received.

If you don't get this email, please check that we have received your application.

Name: (Title, first name, surname.)	
Permanent Address:	Address for correspondence if different:
Tel: Email:	Tel: Email:
Degree being studied (and finish date):	
Address for the University & department you are studying in:	
Name, position, and contact email of your Project Supervisor:	
Project Title:	
Proposed start and finish dates:	
Briefly outline the potential for this project to impact the replacement of animals in research and testing: (Including potential to influence the development or implementation of non-animal, human-centred technologies)	

Animal Research background:

In 300 words or less please demonstrate the potential impact of this project by exploring current issues with animal research in the field.

Please consider and include if relevant:

- The scale of current animal use in this research area. (numbers)
- Flaws/criticism of animal models specifically related to the research area.
- The nature/severity of current animal tests used, to help us assess the replacement impact of the proposed project.

Project Proposal in 700 words or less.

Please ensure this includes - Project aims/hypothesis, lay summary, plan, predicted budget & costings. A timescale/Gantt chart should be included or attached separately.*

** The Lay Summary is the most important section. Please summarise your project including the background science, potential impact, method, and planned outcomes using simple language for a non-specialist audience.*

--

Please write a brief Personal statement (Around 150 words):
Include any other supporting information for your application demonstrating how you will benefit from the studentship (e.g., past experiences, personal circumstances, career ambitions.)
Please also explain how this opportunity will help you develop your skills as a researcher, particularly if you are interested in pursuing a career in animal-free approaches.

--

Have any other grant applications been made for this project? YES NO
If so, please provide details below:

--

Referees:
The Project Supervisor should write a brief supporting statement in the box below which includes supporting information regarding the applicant's lab skills, current performance and predicted degree class.

--

Please give the name, position and address of a second person who can provide references in support of your application, who has knowledge of your ability to undertake the proposed project.

<i>Name:</i>	<i>Email:</i>
<i>Position:</i>	<i>Address:</i>

I understand that awards will not be granted to support undergraduate work that forms part of a degree course. Please tick.

I do/do not enclose a copy of my academic transcript showing my university grades.

Declaration: I confirm that to the best of my knowledge the above information is accurate and true, and I give my consent for my personal data to be processed within the terms of General Data Protection Regulation (GDPR) 2018.

Signed Date

Signature of Project Supervisor

I agree to support the above student on this project and act as the grant holder.
