Are you an undergraduate with an idea for a short research project?

If this idea utilises models, tools or technologies without the use of animals, you may hold the missing piece of the puzzle!

About FRAME

FRAME (Fund for the Replacement of Animals in Medical Experiments) is a charity committed to the development of new techniques that will replace the need for laboratory animals in medical and scientific research, education and testing.

As part of FRAME’s 50th Anniversary celebrations, we are offering grants to two students in their penultimate year to cover a summer research project in their own university.

Successful applicants will receive:

- Up to £750 towards research costs and consumables
- A personal allowance of £150 per week towards expenses
- An opportunity to gain experience in research which relates to the development of alternatives
- Promotional opportunities for you and your university

To find out more and apply visit www.frame.org.uk/latest/news

Deadline for submissions: Friday 30th November
